

BY AUTHORITY.**WATER NOTICE.**

Owing to the drought and scarcity of water, the residents above Judd street and on the slopes of Punchbowl Hill are requested to collect what water they may require for household purposes between the hours of 5 and 10 o'clock A. M.

ANDREW BROWN,
Superintendent Honolulu Water Works.
Honolulu, April 11, 1895. 1311-11

WATER NOTICE.

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 7 to 8 o'clock A. M. and 5 to 6 o'clock P. M.

ANDREW BROWN,
Superintendent of Water Works.
Approved:
J. A. KING,
Minister of the Interior.
Honolulu, March 12, 1895. 1248-11

The Daily Bulletin.

*Pledged to neither Sect nor Party,
But Established for the Benefit of All.*

TUESDAY, MAY 14, 1895.

We have been asked why the BULLETIN has said nothing about the warm weather of the past few days. If there is anyone in Honolulu who did not know that yesterday was excessively sultry and hot we would like to know the name of the individual. Even those who spent the day in the "cooler" complained of the heat.

If the Police Department can make a case against the fellow Troeschler who wielded a gun on Merchant street last night, the opportunity should not be neglected. This is the individual who ran a cobbler's shop on Fort street above Hotel a year ago and afterward located in Honokaa where he made himself notorious by mixing up in the domestic relations of a fellow countryman. There was a shooting, or cutting, scrape then, and in some way Troeschler, who was the aggressor, managed to get off without being prosecuted. If he is allowed pursue the evil tenor of his way he will ultimately land himself on the gallows and add to the expenses of the Government.

The editor of a newspaper is supposed to know everything, in other words to be an animated encyclopedia and not a sleepy dude as too many would-be editors are. While the acting editor of this paper should not be supposed to know as much about grass and lawns as the Commissioner of Agriculture he does know that a little fertilizer put on them once in a while would materially benefit them. The peculiar porous nature of the soil in the Hawaiian islands, and especially in Honolulu with its coral substratum, should make it apparent to anyone that the constant filtering of water through it must necessarily result in dissolving and dissipating the elements required to sustain vegetable growth. This can be easily remedied by the occasional application of fertilizing material containing the chemical constituents lost in the filtration process, and this idea is commended to the consideration of all those who would have their lawns maintain a beautiful green all the year round.

The assault on Captain Cook, of the Mounted Patrol last night furnishes points in the argument that the force should have a thorough sifting. If there are men there who are inclined to indulge in the "rosy" to an extent that they refuse duty at the drill, they are unfit to act as guardians of public safety. The first indication of "bull-headedness" in a patrolman should be considered sufficient grounds for depriving him of his star.

Captain Cook is apparently well qualified to bring the men up to a very excellent standard in drilling but it is a question whether he does not mingle too much with his subordinates to have from them that dignified respect so necessary to the proper discipline in a force of men. We

believe the Captain has had considerable experience with cavalrymen in the States and if this is true he knows the manner of conducting the military there. As his company is patterned after the U. S. forces he should follow the same rules here.

Never in the history of politics in Hawaii has there been a party in power less conciliatory in its methods and less popular than that of to-day. Given life as it was under peculiar circumstances, and under conditions which would naturally give to it the appearance of the exercising of might over right among the sons of the soil, it would seem that it should have adopted a policy of action that would have narrowed, rather than widened, the breach. The position of the Government to-day, reports to the contrary notwithstanding, is on a line with any of those of the South America. There has not been an act in its affairs that would commend it to its opponents. Nor is the friendship among its supporters growing in intensity. On the contrary there is a demand that connubial relation shall cease and light shall be thrown upon the transactions of the departments in which extraordinary and unusual expenses are incurred. The taxpayers have a right to know to what extent their money is being frittered away on irresponsible men employed in the various departments. They are anxious to know if the filibuster rumors are sufficient grounds for continuing the spy system.

Didn't Like The Price.

A foreigner belonging to one of the merchantmen in port, and who was evidently out on a holiday, judging by his stylish attire, created quite a disturbance in the New Model restaurant this afternoon. He took a friend into the restaurant and treated him to a dinner. When it came to paying for the meal the man demurred at paying two bits for a dinner without terrapin and other delicacies; one word led on to another till finally the foreigner became blasphemous and the atmosphere assumed a bluish tinge and smelled strongly of sulphur.

The restaurant was full of people among them being Rev. S. E. Bishop. The man's language became so obnoxious that an officer who was in the restaurant took him to the station, where he was made to pay the restaurant keeper. After leaving the station he challenged any one present to a fight and called on all true yankees to stand up. Special Nicholas promptly grabbed him by the back of the neck and ran him down the street.

Midnight Shooting.

Otto Graef found Truschler on his premises, Merchant street, about midnight last night. He chased him out on the road and the men grappled. Truschler fired a pistol but the shot went wide. Graef succeeded in getting his man on the ground and gave him an unmerciful beating. Captain Scott and others arrived and Truschler after examination was found to be badly hurt. He was taken to the hospital. After hearing Graef's statement the Deputy-Marshal ordered Graef's release. Truschler was noticed by several people yesterday walking up and down in front of the premises.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden Drug Store and procured a bottle of it. It gave Mr. Carter prompt relief and I can vouch for its having cured me." For sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

If you want your watch repaired. If you want jewelry made up neatly. If you want souvenir spoons, or anything in the jewelry line. H. G. Blatt, at C. Gertz's store, Fort street, is your man. He was for ten years the practical watchmaker for Wenzel & Co.

Timely Topics IT PROVED :

May 7, 1895.

Yesterday witnessed one of the quietest elections ever held in Honolulu or elsewhere. It was a good deal like some of the elections in the South American republics where you always vote the government ticket or stay away from the polls. Although only 111 votes were cast, that number was even larger than was expected.

Talking about the election, however, reminds us that we have just received a novelty in the shape of a newly invented can opener, which is simplicity itself. It is called the A. B. C., and we are the only firm handling them. This can opener is different to any other in use. It takes the entire top of the can off with a single turn of the wrist. All you have to do is to lay the machine on the top of the can, strike a little wooden knob similar to those used in opening soda-water bottles and the can opener does the rest. There is no possibility of injuring the hands or losing your temper.

Did we hear anyone call out "rats?" We thought we did, and that brings to our mind another novelty in the shape of a French rat trap. This is a family concern and will accommodate whole families of these pestiferous rodents. Mr. Rat walks into the trap until he reaches a little platform which gives way under his weight and he is caught before he knows where he is, being landed in an entirely different compartment to that which he first entered. Mrs. Rat follows to see what the old man was doing out so late at night and soon joins him. We have caught ten rats in one night in one of these traps. They must be seen to be appreciated.

This warm weather makes one think of ice-cream and an ice-cream freezer that will suit a small family is a desideratum. We have just imported a new style of freezer which cannot fail to commend itself by its usefulness. It is provided with a heavy cap which fits tightly over the receptacle holding the cream, and is so constructed as to require less ice, less salt and less time in freezing. If you want one of these ask for the Gem. It is a gem and we guarantee it.

The Hawaiian Hardware Co. Ltd.

Opposite Spreckels' Block,
807 FORT STREET.

to me that good goods and low prices are still appreciated in Honolulu. I therefore intend to give my customers and the public in general another opportunity. I beg to call attention to the special bargains in our line of

Wool Goods, Cashmere, Flannelettes & Flannels.

Sale will commence MONDAY, April 22d.

M. S. LEVY,
Fort Street

Havana Flats

is the latest novelty in cigars. This is a perfectly flat cigar. The filler is Havana of a very high grade and laid in, like the sheets of a book, in the same way as cigars that cost \$150.00 per thousand. The outside appearance of the cigar conforms to the filler, and is perfectly flat. Those of our cigar customers who have sampled them pronounce the Havana Flats of excellent quality and of unique and attractive shape.

Havana Cigars

by reason of their superior quality and name are usually sold at high prices. We have an excellent line of these cigars direct from Havana. While the quality of these cigars is at the top-notch our prices have been scaled down to bring these popular cigars within the reach of all.

Manila Cigars

need very little said in their praise, for they are well known here to every smoker. It would be difficult to get a better cigar for the price at which Manilas are sold. We allow no one to undersell us in this line. We compete with any nationality. Remember that when looking for Manila Cigars.

HOBRON DRUG CO.**FOR EASTER!**
